

**AOC Announces Price Increase for EMEA
17 December 2021**

AOC has today announced a price increase of €200 per ton for its entire portfolio of Unsaturated Polyester (UPR) and Epoxy Vinyl Ester (VE) resins sold in Europe, Middle East and Africa. The price increase will take immediate effect, or as soon as contracts allow. This price increase is in addition to the previously announced price increase of November 8th.

“AOC is seeing steep increases in the cost of raw materials, in particular for glycols. This leaves us no choice but to further raise the prices of our products as a result”, explains Fons Harbers, Vice President Marketing & Sales EMEA of AOC.
