

**AOC Announces Price Increase for EMEA
22 February 2022**

AOC has today announced a price increase of €75 per ton for its entire portfolio of Unsaturated Polyester (UPR) resins sold in Europe, Middle East and Africa. The price increase will take effect on March 1st, or as soon as contracts allow.

“AOC is seeing increases in the cost of raw materials on the back of high oil prices. This leaves us no choice but to further raise the prices of our products as a result”, explains Fons Harbers, Vice President Marketing & Sales EMEA of AOC.
