

## Corona virus – All products available as usual

14.02.2020

At present, the corona virus is spreading in parts of China. As a result, many Chinese companies are not operating since the traditional New Year's Day celebrations on January 25, 2020.

So far these local measures have had no effect on the current delivery situation at BÜFA. As usual, all our products are available for delivery and availability.

In addition to deliveries from overseas, we purchase products and raw materials from Europe on the one hand, and on the other hand we keep stocks on hand in order to be able to guarantee the supply of goods.

We will keep a close eye on the situation and inform you about any change.
