Rastede, March 22<sup>nd</sup>, 2022

**Price Adjustment for deliveries as of April 4th, 2022**

Dear Mrs. Olesen,

dear Mr. Jensen,

market conditions have changed considerably in the past weeks. The conflict in the Ukraine is adding to bottlenecks in the transport sector, packaging industry, as well as rapidly rising energy costs. In addition to rising raw material costs, there is also uncertainty about availability.

To maintain BÜFA's high level of service as well as its reliable ability to supply we have to adjust our prices by +0.30 EUR/kg on all BÜFA®-specialties.

Please note that these adjustments will also affect open orders for deliveries after April 4<sup>th</sup>, 2022.

Delivery times may also be extended at present. Therefore we ask you to place orders as early as possible.

We look forward to a continued good cooperation and thank you for your understanding.

Yours sincerely,

Lothar Kempf  
Managing Director

Timo Troch  
Head of Sales
